LANGUAGES

MULTILINGUAL APPROACH

Children in our Pelican Programme benefit from a multilingual approach, with regular Mandarin lessons supporting children's development in both English and Mandarin.

For Nursery and Reception, all students will study Mandarin five times a week. In Year 1 and 2, Mandarin lessons take place three times a week, with the option to choose between Mandarin or Japanese.

IMMERSIVE ENGLISH-MANDARIN BILINGUAL PROGRAMME

你好!

The Immersive English-Mandarin bilingual programme at The Perse is designed to **develop high-level academic proficiency in both English and Mandarin**. More than just mastering two languages, we nurture children to be truly bilingual and bicultural students.

Our Immersive English-Mandarin bilingual programme for **Nursery to Year 2 (ages 3-7)**. The programme will expand to higher year levels in the coming years, enabling students to continue their bilingual studies throughout junior school.

Through immersive learning, cross-cultural experiences, and a carefully structured alternating language model, students benefit from a well-rounded education that supports language development, cognitive flexibility, and global competence.

Bilingual Programme Fee: \$4,000/annum (before GST) for Nursery to Year 2.

OUTDOOR LEARNING

LEARNING BEYOND THE CLASSROOM

Our Pelican Programme integrates outdoor education as a key component of the curriculum, offering young learners a rich variety of experiences in natural surroundings that complement their academic, social and physical development.

Learning Through Exploration

Whether it's exploring our **rainforest**, picking up vegetables and fruit from our **spice and herb garden**, or enjoying outdoor play in our **playground** and **water play area**, every outdoor activity is designed to encourage hands-on learning, creativity, and problem-solving.

Building Confidence and Independence

Through engagement with nature, children gain confidence as they take on new challenges and responsibilities. Exploration in an outdoor setting help children develop their physical coordination, resilience, and independence.

Sustainability and Environmental Awareness

From caring for the garden to learning about the importance of nature, our outdoor education helps young children develop a deep connection with the environment. Designed not only for play but to instill a sense of responsibility for the world around them.

By balancing academic learning with hands-on outdoor experiences, we prepare children for a lifetime of curiosity, creativity, and academic success.
